

At Nationwide Children's Hospital, NIH funding makes possible important clinical trials of viral therapy for solid cancer tumors in children, testing of new agents against childhood tumors, research to prevent and treat infant prematurity, and the furthering of understanding of the mechanisms of autism prevention.

In fact, the Research Institute at Nationwide Children's Hospital is ranked 6th for NIH funding among free-standing children's hospitals in the United States.

Hyper Tech Research, Bertec Corporation, Battelle, and BioOhio—all of these outstanding companies in the third congressional district of Ohio benefit from NIH research funding for biotechnology, drug development, medical devices, and health care.

But, just as NIH dollars that flow to Ohio help grow the state's economy, a reduction in those dollars have hurt us.

On March 1, 2013 sequestration required NIH to cut 5 percent—\$1.55 billion—of its fiscal year 2013 budget.

These drastic cuts affected all NIH programs, projects, and activities—every single area of medical research was negatively affected.

NIH now has approximately 700 fewer competitive research grants.

They now have approximately 750 fewer new patients in their clinical center.

The development of more effective cancer drugs is being delayed.

Research on a universal flu vaccine is being delayed.

Research on prevention of debilitating chronic conditions is being delayed.

These delays are proof that sequestration has significantly undermined medical progress across all disciplines of research on the full spectrum of diseases and conditions.

We cannot continue to compromise our nation's future economic growth and security by blindly cutting federal investment in areas that are critical to our nation's ability to innovate and compete in the global economy.

As much as half of U.S. economic growth since World War II is a result of technological innovation, much of which resulted directly from federally-funded scientific research.

The private sector, which requires rapid returns in investment, relies on the federal government to fund basic scientific research.

Sustained support for federal research, education, and student aid programs pay dividends by building human, scientific and technological capital for our nation.

We cannot afford to let the United States fall behind other countries, such as China, in such important areas as scientific research and innovation.

Our government must show a clear commitment to sustained funding of scientific research across the disciplines so that our nation can compete globally and we can build a better America for future generations.

Sequestration is not the answer to our nation's fiscal problems.

I urge my colleagues to oppose further cuts to nondefense discretionary programs.

The point of fiscal responsibility is to invest in these critical federal programs in order to provide a better life for all Americans, especially our children who are our future researchers and inventors.

Sustained investments in NIH are essential so that our nation can train the next genera-

tion to make tomorrow's health discoveries and to continue America's scientific leadership.

The work done by NIH helps grow our economy, improve our health, and has made our nation stronger and more secure.

We should not weaken them.

IN HONOR OF MR. LARRY HORTON'S RETIREMENT

HON. DORIS O. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 2013

Ms. MATSUI. Mr. Speaker, I rise today in recognition of Larry Horton, Senior Associate Vice President and Director of Government and Community Relations at Stanford University, as he celebrates his retirement from a long and distinguished career. I ask my colleagues to join me in honoring this individual who has contributed so much to Stanford University.

Mr. Horton joined Stanford University in 1970, and has served in a number of positions including Assistant and Associate Dean of Student Affairs, Associate Director of Government Relations, and Associate Vice President for Public Affairs. In addition, from 1976 to 1977, he participated in the President's Executive Exchange Program in Washington, where he served as an assistant to the Secretary of Health and Human Services. His achievements at Stanford include the 2000 Community Plan/General Use Permit, the Mayfield Development Agreement and the conclusion of the Trails Agreement with Santa Clara County.

A true Cardinal, Mr. Horton earned both his B.A. in political science, and his M.A. in history, from Stanford. Following graduation, he served our country in the U.S. Army, with two years in Western Europe during the Vietnam War era. Through his years at Stanford, he has seen history unfold on the campus, and helped to shape Stanford's policies in areas vital to the University's success, including housing for women and minorities, federal patent legislation, federal research-funding policy, federal immigration and national security issues, and significantly, land use issues.

At Stanford's 2013 commencement, Mr. Horton was honored with the Kenneth M. Cuthbertson Award For Exceptional Service to Stanford University. This award was truly deserved, and Mr. Horton will leave Stanford University for the better from his 54 years of service to the school. Following his retirement, Larry will certainly maintain a busy schedule pursuing his passions of opera and theater, golf, travel, and enjoying a good book.

Mr. Speaker, I am honored to recognize the numerous contributions made by Mr. Larry Horton during his tenure at Stanford University. As Mr. Horton, family, friends, and colleagues celebrate his retirement, I ask my colleagues to join me in thanking and recognizing him for his many years of service.

A TRIBUTE TO THE FISHER HOUSE: A HOME AWAY FROM HOME, FOR AMERICA'S HEROES AND THEIR FAMILIES

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 2013

Mr. SESSIONS. Mr. Speaker, I rise today in this Christmas Season of giving to recognize The Fisher House, an organization that has built sixty-two homes for our wounded warriors and their families. The Fisher House is a place of recovery where families can be reunited with their loved ones as they fight the battle to overcome the scars of war. As a home away from home, The Fisher House provides safe haven and helps relieve the financial hardships that families relocating to be with their wounded loved ones face. The Fisher House Program was founded in 1990 by Zachary and Elizabeth Fisher in Rockville, Maryland. They are located at major military and VA medical centers nationwide. Kenneth Fisher is currently carrying on his Uncle Zach's legacy as acting Chairman. I submit this poem penned by Albert Carey Caswell in their honor.

FISHER HOUSE—BECAUSE A FAMILY'S LOVE IS GOOD MEDICINE

A . . .
A Home . . .
A Home Away . . .
A Home Away From . . .
A Home Away From Home!
And when our heroes come back home . . .
From war and battlefields of honor bright to
which they belong.
Back from that most dreaded cost of war
. . .
all in such pain and heartache to endure
. . .
As such a battle up ahead them so lies be-
fore,
for all these families in this new war!
Broken all in such places.
With scars upon their faces . . .
With arms and legs missing in all places . . .
With operation after operation,
as this they so face this!
As they can not so be alone . . .
For they so need a place of refuge where they
can get strong . . .
A place that they can call Home!
A Home Away From Home,
where they can all belong!
Can grow!
A place where healing is so strong!
A place where their loved ones can hold them
tight . . .
and encourage them both day and night!
A place to ready them for this new battle,
this new fight!
A place of refuge and of rest!
A place where they can but be their best!
A place that which helps their fine heart's
crest!
A place which brings them to recovery and
nothing less!
A place where they so all belong!
So they know that they are not alone!
A Home Away From Home!
Just like a love song!
Because all of these families come from afar!
As they put their own lives on hold . . .
because that's who they are!
Such quiet heroes one and all,
who so shine like the stars!
Because they make their loved ones who
they are!
All In This Home Away From Home from
afar!
